## SUMMARY

Computer Science professional with experience in research and development, cybersecurity, and emerging technologies, backed by strong technical and analytical skills. Eager to leverage technical expertise and research experience to deliver effective solutions and contribute to organizational success in a dynamic environment.

## EDUCATION

- **Master of Computer Application:** PES University, Bengaluru - 2025 - 74%
- **Bachelor of Computer Application:** Kristu Jayanti College, Bengaluru - 2022 - 82%
- **HSC:** Balayesu Junior College, Hindupur - 2019 - 94%
- **SSC:** Balayesu Vidyalaya, Hindupur - 2017 - 88%

## EXPERIENCE

### Research Assistant, PES University

September 2025

Conducted research on Post-Quantum Cryptography (PQC), quantum-resistant algorithms, and emerging security standards. Explored cryptographic vulnerabilities, security analysis, and PQC migration strategies. Contributed to research projects involving cryptographic analysis and secure system design. Currently developing a cryptographic discovery tool to identify cryptographic assets, assess risks, and support PQC migration.

## PROJECTS

- **NyayaSetu** Web Application built using Next.js, Node.js, MongoDB, Ganache, and Tailwind CSS. Developed a blockchain-based justice platform featuring secure MetaMask login, Aadhaar verification, and role-based access. Implemented evidence upload, transfer, and forensic analysis modules, ensuring data integrity and transparency through blockchain immutability.
- **Animal Detection and Behavior Recognition** Implementation of a web application using Python, MongoDB, React.js, and Machine Learning. Developed a system to detect, count, and analyze the behavior of deer, elephants, and zebras, helping researchers and conservationists monitor wildlife efficiently and make data-driven decisions.

## SKILLS

- **Programming Languages:** Python, Java, C
- **Web Development:** HTML, CSS, ReactJS, NextJS, NodeJS
- **Database Management:** MySQL, MongoDB
- **Operating System:** Familiar with working on Linux.
- **AI/ML, Data Science:** Machine Learning, Data Analysis, Deep Learning, Natural Language Processing
- **Cloud Computing & Networking:** Familiar with cloud services and networking concepts
- **Strengths:** Strong attention to detail with a continuous learning mindset, and collaboration skills.

## CERTIFICATIONS

- Data Analytics Specialization Certificate - Completed as part of college program

## ACHIEVEMENTS

- Achieved first place in the Intracollegiate IT Fest 2023, demonstrating excellence in IT skills and teamwork.
- Secured second Place in a 24-hour Hackathon organized by the Center of Cybercrime Investigation Training and Research (CCITR) PES University 2025.
